

Staff reviewed the initial comments received as part of its proposed revision to 83 Illinois Administrative Code 500 ("Part 500"), Standards of Service for Gas Utilities. Responding to those comments, Staff created two documents. The first document attempts to summarize all comments Staff received, discusses whether Staff accepted each comment, and provides reasons for Staff's rejection of a comment. The second document is a Round 2 draft of Part 500 that includes changes responding to comments and additional changes from further Staff editing.

Staff is soliciting comments on this Round 2 draft of Part 500. Please provide all comments in **revision mode**. For comments that go beyond language clarification or for proposing new sections, please provide as much supporting documentation as you can. Send comments to Eric Lounsberry, [elounsbe@icc.illinois.gov](mailto:elounsbe@icc.illinois.gov) by July 6, 2012. Contact Mr. Lounsberry at 217-785-5436 if you have any questions regarding this process.

Staff plans to hold workshops after evaluating comments from this solicitation. Staff plans on placing everyone's comments on the ICC website so please do not include confidential information in your comments.
